PROFESSIONAL SUMMARY

Results-driven Full-Stack Engineer with 4+ years of experience designing scalable web applications, distributed systems, and cloud architecture using React, Next.js, Node.js, and JavaScript. Proven track record of improving system performance by 40% and leading cross-functional engineering teams to ship high-impact SaaS products.

SKILLS & KEY COMPETENCIES

Languages & Core: JavaScript (ES6+), SQL, HTML5/CSS3, Java

Frameworks & Libraries: React, Next.js, Node.js, Express, Tailwind CSS, Redux Toolkit, GraphQL, Prisma ORM, Supabase, MongoDB, PostgreSQL, Vitest, Playwright

Cloud & Infrastructure: Docker, CI/CD Pipelines, Git, OAuth, REST API, Microservices, System Architecture

WORK EXPERIENCE

Software Engineer | Hitnext Technologies July 2020 – October 2023 (Sylhet, Bangladesh)

- Developed and maintained web applications using modern frontend and backend technologies, including React, Next.js, Node.js, Express.js, MongoDB, PostgreSQL, and WordPress/PHP
- Optimized PostgreSQL query execution plans and database schema, resolving critical database bottlenecks and reducing query response latency by 35%.
- Designed reusable application architecture and integrated authentication, databases, APIs, and third-party services while troubleshooting production issues.

Quality Control | Nitro9 March 2019 – April 2020 (Odense NØ, Denmark)

- Tested web applications and software systems to verify functionality, reliability, and adherence to project requirements.
- Identified, reproduced, analyzed, and documented functional and UI defects with clear reproduction steps and expected versus actual behavior.
- Collaborated with developers on defect resolution, regression testing, and verification of fixes before release.

EDUCATION

B.Sc in Computer Science — Leading University, Sylhet, Bangladesh 2016 – 2019

M.Sc in Computer Science and Information Technology — Ca'Foscari University, Venice, Italy

KEY PROJECTS

Sphinx Mobile 📄 [Mike-leonard/sphinx-mobile](https://github.com/Mike-leonard/sphinx-mobile)

Tech Stack: Next.js • React • JavaScript • Node.js • PostgreSQL • Prisma • Supabase • AI • GitHub Actions

A production-oriented content management and product platform with a CRM-style administrative architecture for managing devices, blogs, users, SEO, affiliate markets, analytics, and AI-powered workflows.

OTHER WORK EXPERIENCE

Restaurant Staff February 2026 – Working Five Guys • Venice - Managed customer orders and supported daily restaurant operations in a busy team environment. - Demonstrated reliability, adaptability, and attention to detail across day-to-day responsibilities.	Restaurant Staff March 2024 – November 2025 McDonalds • Venice - Provided customer service in a fast-paced restaurant environment, handling multiple tasks efficiently. - Worked closely with team members to maintain daily operations and consistent service standards.
